Brow lamination is a new trend in the brow industry and is originally from Russia. It's the best procedure for taming tough and unruly hairs as it sets them in place so every hair lies in the same direction, giving a just-combed effect. It's like a keratin treatment for your brows! The best bit is it's vegan and cruelty-free.

After the procedure, your eyebrows will look thicker, fuller, straighter and combed up into the ideal shape. They should look like the ultimate groomed, brushed up eyebrows. The idea is that you won't have to use a pencil to draw in the shape anymore – isn't that a dream?
