A lash lift and tint is a lash service that permanently curls and tints natural eyelashes. Lash lifting is a new age lash perm that uses silicone shields and a series of cream-based products to curl natural eyelashes, eliminating the need for eyelash curlers. Unlike traditional eyelash perms, which use tight rods to give lashes an unnatural barrel curl, lash lift and tint uses shields to give natural lashes height while extending lashes to their full length. Lash tinting is often used in conjunction with lash lifting, although it can be done on its own and permanently darkens the colour of the natural lashes. When used together, a lash lift and tint replaces the need for eyelash curlers and mascara.
